RELEVANT EXPERIENCE

- Patient Transport, Intermountain Health

August 2022 - PRESENT

In this position I was responsible for transporting of patients, focusing on quality, safety, and customer service, while providing care and compassion to patients, families, visitors and staff.

- Transported inpatients in a safe and efficient manner.
- Used appropriate and approved transport pathways to ensure confidentiality. Uses appropriate methods of travel and equipment as directed.
- Used Safe Patient Handling equipment as indicated
- Used isolation precautions and/or standard precautions appropriately.
- Placed soiled linen in designated areas.
- Dressed carts and wheelchairs with linen per procedure.
- Cleaned transport equipment before and after every single patient and returned to appropriate storage areas.
- Responds to Code Disaster, Code Green, Code Pink, Code Red, and Code Yellow when required. Knows location of fire extinguishers and fire pull boxes.
- Always notified patient nurse when taking or returning patient to/from room and notifies test site staff when patient arrives for test.
- Utilized written Patient Handoff Form and ensures that handoff form is filled out prior to initiating transport and signs and turns in form immediately after completion of transport.
- Wrote the test location on the whiteboard in the patient room when leaving with the patient.
- Notified patient nurse or test site staff of any problems that occurred during transport concerning patient condition or safety.
- Responded to pager or other communication device such as Vocera badges in a timely and effective manner.
- Communicated openly with operators and with other staff members.
- Informed test sites and operators of any delays and clears transports when completed.
- Communicate with test sites if transport will be delayed.

- **IT Asset Manager/ Desktop Technician 1, Sutter Health/ Randstad**

March 2022 - May 2022

As an Asset Management Specialist, I played a key role in effectively managing and tracking assets throughout their life cycle. I ensured meticulous documentation and accurate records for all issued, collected, and tracked assets, maintaining a high level of attention to detail. I successfully managed hardware at all phases of its life cycle, focusing on efficient utilization and proper maintenance. Additionally, I took responsibility for accepting, shipping, and tracking all hardware assets, maintaining a comprehensive inventory to facilitate smooth operations. My proficiency in utilizing the Cherwell ticketing system enabled me to effectively manage tickets and tasks related to asset management.

- Issued, collected, and tracked all assets, ensuring meticulous documentation and accurate records.
- Managed hardware at all phases of its life cycle, ensuring efficient utilization and proper maintenance.
- Responsible for accepting, shipping, and tracking of all hardware assets, maintaining a comprehensive inventory.
- Proficient in using Cherwell ticketing system to manage tickets and tasks related to asset management.
- Ensured organization and inventory levels of stock rooms.
- Collaborated with cross-functional teams to address asset management needs and provide exceptional customer service.
- Stayed updated with industry trends and contributed to continuous process improvement initiatives.

- **Packout, Pharmatech/Helpside**

August 2021 - February 2022

In my role, I successfully packaged orders, ensuring accuracy in both quantity and product selection. I actively engaged with team members to address and solve problems that arose during the packaging process. Taking responsibility for managing my own working schedule, I consistently met deadlines and maintained a productive workflow. Moreover, I consistently achieved and exceeded production quotas, contributing to the overall success and efficiency of the team.

- Package orders by insuring quantity and product is correct

- Interact with team members to problem solve
- Responsible to manage personal working schedule
- Ensure production quota is achieved

- **Courtesy Clerk/Grocery Bagger, Smith's Food and Drug**

November 2020 - August 2021

Dedicated to providing an exceptional customer experience, I prioritize delivering outstanding service that exceeds expectations. I proactively establish and maintain a safe and clean environment, fostering an inviting atmosphere that encourages customer loyalty and repeat business. Guided by the company's core values of respect, honesty, integrity, diversity, inclusion, and safety, I consistently uphold these principles to ensure the well-being and satisfaction of both customers and team members.

- Bagged groceries, ensuring at least five items per bag without damage.
- Followed bagging best practices for various bag types (reusable/plastic/paper).
- Assisted customers in loading bags and communicated grocery specials.
- Maintained store appearance through shelf conditioning and merchandise organization.
- Cleaned spills, collected trash, and ensured store cleanliness inside and out.
- Demonstrated exceptional customer service and upheld safety procedures.
- Reported safety risks, issues, and maintained adherence to regulations.
- Contributed to a welcoming environment and promoted customer loyalty.

EDUCATION

U of U Coding Bootcamp, Salt Lake City — *Computer Science*

February 2023 - August 2023

Coding bootcamp taken through the U of U to develop my skills and experience in responsive apps, web development, working with apis, creating and managing web apps from the ground up.
